## **DETAILED ACTION**

### ***Response to Amendment***

1. This communication is responsive to the applicant's amendment dated 09/01/2010. The applicant(s) amended claims 1-2, 4-7, 11, 13, 15-18, cancelled claims 3 and 14, and added new claims 22-23 (see the amendment: pages 2-8).

The examiner withdrew the previous claim rejection under 35 USC 103, because the applicant amended all independent claims and provided corresponding argument(s), which overcame the prior art rejection and brought considerable reason for allowance (see below).

### ***Examiner's Amendment***

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. Authorization for this examiner's amendment was given in a telephone interview with the applicant's representative, Joseph Gushue (59,819), on 10/29/2010. The Examiner's Amendment is as following:

In the **claims** (refer to the latest amendment filed on 09/01/2010):

Regarding **claim 2**, replace "wherein the mixer comprises a digital signal processor" with --wherein a digital signal processor comprises the mixer--.

Art Unit: 2626

Regarding **claim 13**, replace “wherein the mixer comprises a digital signal processor” with --wherein a digital signal processor comprises the mixer--.

*-----End of Examiner’s Amendment-----*

*Allowable Subject Matter*

4. Claims 1-2, 4-13, 15-23 are allowed.

The examiner’s statement for allowance is based on the same reason(s) as the applicant’s arguments filed on 09/01/2010 (see Remarks: page 10, paragraph 2 to page 11, paragraph 1), which are persuasive and provided considerable reason for allowance. By a further search and reconsideration, it is noted that even though the prior art of record, PAWATE et al. (US 5,641,927) and BOSS et al. (US 5,915,237), provided numerous related teachings and techniques, the combined features as claimed/argued, particularly including the limitation of “a mixer configured to replace the at least one speech signal fundamental frequency of the digital speech signal with the note fundamental frequency for each of the plurality of notes of the musical score to produce a combined digital signal”, are not anticipated by, nor made obvious over the prior art of the record.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Art Unit: 2626
